

CORONAVIRUS

Please DO NOT visit the Home if you have been in contact with anyone with symptoms or has a virus

Signs and Symptoms:-

Include respiratory symptoms and include fever, cough and shortness of breath. In more severe cases this can lead to pneumonia, and severe respiratory problems.

When visiting the home please ensure that you carry out the following measures.

Prevention Measures:-

Includes frequent cleaning of hands using alco-gel hand rub or soap and water.

This is to be done regularly and for the recommended 30 seconds each time.

Ensuring your mouth is covered when coughing and sneezing – always using a disposable tissue

****There are hand sanitisers around the Home please make sure you are using these regularly whilst in the home *****
